

## **dentalware GP Hardware Requirement List**

**Important:**

This Hardware Requirement List is intended to be a guideline only. It is very important to select a hardware/network vendor that supplies good quality products and is experienced in set up. An experienced vendor should help you to make an informed decision.

If you have any questions regarding the requirement list, please contact our technical support at 905-470-6913.

### **Recommended Requirements for Workstation**

- Intel Core i5 Processor (no AMD Processor)
- 4GB RAM
- 500 GB Hard Drive
